1. Introduction

Purpose

This document has been designed in consultation with Canada Soccer with the aim to provide clubs, players and parents with information on the evaluation and selection of players for the BCSPL within the U13 (2010 and 2011) birth year. Also included is the overview and background to the league as well as valuable answers to frequently asked questions.

BCSPL Overview

The BCSPL is a standards-based development environment for female and male players aged U13 to U18 and is positioned as the highest level of youth community soccer within BC.

The purpose of the league is to bring together identified players from the BC Soccer membership into training and game environments that support the player's overall development, as well as providing further opportunities for identification into higher levels of play including, Provincial Programming, University, Professional/National teams programming and progressing into adult community soccer.

To achieve this BC Soccer and the BCSPL commits to four key responsibilities to player identification and development within the Province of British Columbia. These include.

Four Key Responsibilities

- 1. To promote a Player First Approach.**
- 2. To support the Canada Soccer's, Long-Term Player Development Principles.**
- 3. To provide Clear and Recognized Pathways for players to be identified, developed and supported within.**
- 4. To support and enhance all technical standards within the BCSPL.**

The BCSPL environment has also been designed to support the development of coaches and referees, who are required to attain a minimum level of certification to ensure standards are in place. This is complimented with ongoing technical support provided through the BCSPL Clubs, BC Soccer and Canada Soccer.

It is important to note that participating Clubs in the BCSPL have met the Canada Soccer National Youth Club Licence requirements, covering administration, governance, infrastructure and technical. This requirement is in addition to gaining BC Soccer Board of Directors' approval for participation. Furthermore, participating Clubs in the BCSPL must also abide by BCSPL league rules and regulations. This provides assurance that the BCSPL Clubs are compliant with quality standards and are operating at the highest level of youth community soccer within BC and Canada.

2. Background

To better understand how the BCSPL came to fruition and its evolution over the past ten years the timeline below draws attention to key dates during the existence of the BCSPL.

2011

The BCSPL was created following a directive from Canada Soccer to the Provincial Associations to develop and introduce high performance youth leagues. Canada Soccer's intention was to create standards-based youth leagues to support the provincial development pathways at the U13 to U18 ages. Within British Columbia, a Request for Proposal process was established and, in partnership with the Vancouver Whitecaps FC, eight founding BCSPL franchise clubs were selected.

2011 to 2014

A league representative Board of Governors was established to oversee BCSPL operations. From 2011 to 2014, BC Soccer supported league operations primarily through a review of technical delivery and providing technical recommendations based on good practices specific to player and coach development.

2016 to 2019

In accordance with BC Soccer's 2016-2019 Strategic Plan, the BCSPL Club Licence (introduced in 2017), initially designed to set out the minimum technical standards to which franchise clubs were required to adhere. The Licence also identified areas for clubs to improve and was a mechanism for BC Soccer to remove a franchise club that did not meet the requirements, thus creating the ability for a Member Organization outside the BCSPL to apply to join and participate in the BCSPL.

Furthermore, BC Soccer took a more active role in supporting the BCSPL, specifically working with the BCSPL President and leadership group to better align the governance model and the operation of the BCSPL transition from an independently operated society to a BC Soccer program.

2019

In 2018, the Canada Soccer Club Licensing Program was launched. The highest level within that program is the National Youth Club Licence designation (NYCL). One of the requirements of the NYCL is that holders participate in the highest level of youth play in each province; in BC, that is considered to be the BCSPL. With this in mind BC Soccer dissolved their BCSPL Club Licence, moving key technical requirements in the BCSPL league rules and regulations as well as retooling further resource and support into a BCSPL Technical Service Plan introduced in 2019.

2020 to 2021

As of September 2021, the BCSPL has expanded to 12 BCSPL Clubs, with a 13th approved to join the league for 2022.

3. BCSPL Clubs

As previously mentioned, it is important to note that participating Clubs in the BCSPL have met the Canada Soccer National Youth Club Licence requirements, covering administration, governance, infrastructure and technical. This requirement is in addition to gaining BC Soccer Board of Directors' approval for participation. Furthermore, participating Clubs in the BCSPL must also abide by BCSPL league rules and regulations.

Each year BC Soccer Member Organizations from outside the BCSPL can apply for Canada Soccer's National Youth Club Licence. As the licensing process involves several steps and is an in-depth review of organizational governance and operations, the approval of new licence holders requires time. As such, new applicants approved for participation in the BCSPL will not begin play until the year following their approval. For example, if a BC Soccer Member Organization applies in 2022, and meets all Canada Soccer and BC Soccer requirements identified above the earliest approval of that organization as a National Youth Club Licence holder would occur in 2023 and that BC Soccer Member Organization will be able to participate in the BCSPL beginning in September 2024.

As of September 2022, the BCSPL will consist of thirteen BCSPL Clubs, including two on Vancouver Island, one in the Okanagan and eleven in the Lower Mainland. For more information on the participating Clubs in the BCSPL, please see below.

4. U13 (2010 and 2011) Evaluation Philosophy

As outlined above, the purpose of the BCSPL is to bring identified players into training and game environments that support the player's overall development, as well as providing further opportunities for identification into higher levels of play including, Provincial Programming, University, Professional/National teams programming and progressing into adult community soccer. It is recognized that the identification process can be extremely stressful for young players. This is particularly true if player identification is done through a traditional "tryout", which provides a relatively limited opportunity to demonstrate the ability to play at the BCSPL level in an unfamiliar and high stress environment.

In addition to being stressful on young players, tryouts are also not the most effective way to evaluate players. Evaluating players on an ongoing basis over an extended period of time, preferably in an environment in which they are comfortable, is a better approach in terms of the effectiveness of the evaluation and in limiting the amount of stress on young players.

While creating an inclusive environment that provides opportunities for all players with the desire and ability to compete at the BCSPL level is a priority, doing so holistically and taking a player-first approach to identification, which considers the mental, social, and emotional well-being of these young athletes in addition to their technical, tactical, and physical ability, is essential.

Wherever possible the BCSPL Intake Evaluation Philosophy and Process shall rely on continuous evaluation of players to determine if they are at the BCSPL level and therefore suitable for selection to a BCSPL Intake Roster. This is most easily achieved by BCSPL clubs and or their "designated partner clubs" that have a grassroots program (U12 and younger) that includes league play. For the clubs lacking this supporting programming infrastructure, a similar suitable evaluation environment should be created. Players should be evaluated within U12 team or training environments, and without "tryouts" taking place. "Open Tryouts" (or other similarly structured evaluation events) cannot be advertised for BCSPL programs.

In principle, players should participate in the BCSPL program that is closest to them. This reduces the amount of time that the player will spend travelling to and from training and games. The goal of the intake evaluation process is to determine if a player is at the BCSPL level, while considering the most effective and least stressful processes. Clubs should form their BCSPL teams from players within their club and partner clubs before considering players from other clubs.

With the above Philosophy in mind and respective of the fact that *not every player can be evaluated in the same manner*, below is the U13 Intake Evaluation Process for 2010 and 2011-born players.

5. U13 Intake (2010 and 2011) Evaluation Process

1. There are no boundaries in place within the BCSPL; therefore, a player from any location within BC has the opportunity to be selected by any one of the current BCSPL clubs.
2. Within the BC Soccer membership and for purposes of BCSPL Player Evaluation and Selection, clubs and their registered players are divided into four categories. For these purposes, a player's U12 club or league team (where they appear on an official team roster) defines where they are officially registered* (BC Soccer registration) and the category into which they would fall below:

Player Categories:

- A. Players currently registered with a BCSPL club.
- B. Players currently registered with a BCSPL “designated partner club”**.
- C. Players currently registered with a club that has no BCSPL affiliation.
- D. Players currently registered with a BCSPL club or designated partner club who would like to be evaluated for BCSPL participation by a club *other than* the club at which they are currently registered.

* In the situation where a player is registered in a U12 club but pays for supplemental training outside their club, their U12 team is considered where they are committed to in this period.

** A designated partner’s program is where it is clearly stipulated in writing (i.e. on a website) that a partnership exists between two clubs.

- 3. Evaluations should be a minimum of two (2) weeks in length and include at least four training sessions.
- 4. Players should be evaluated within U12 team or training environments without “tryouts” taking place.
- 5. “Tryouts” (or other similarly structured evaluation events) cannot be openly advertised for the BCSPL U13 Intake.
- 6. Evaluation opportunities must not conflict with the current club’s training and matches, which should be considered the priority for the player.

7. Player Identification and Evaluation Process:

- a. **Category “A” Players** are training and playing matches with a BCSPL club and should be evaluated in that environment. A supplemental tryout is not necessary to determine if these players are at the BCSPL level.
- b. **Category “B” Players** are training and playing matches with a “designated partner club” and can be evaluated in their home environment as a part of the working relationship with the BCSPL club or invited to be evaluated in the BCSPL club training environment to determine if they are at the BCSPL level. A tryout is not necessary to determine if these players are at the BCSPL level.
- c. **Category “C” Players** may be scouted and observed in their current environment at any time and may be invited to be evaluated for BCSPL participation as outlined in BC Soccer Rule 22***, with the following requirements:
 - i. Permission to contact players to offer an opportunity for evaluation to join the BCSPL shall not be unreasonably withheld.
 - ii. If the player’s current club Technical Director does not comply with the request, the BCSPL organization may contact BC Soccer for permission to approach the player’s parent or guardian or coach/official of the player’s current team.
- d. **Category “D” Players** may participate in the BCSPL evaluation process with the following restrictions:
 - i. BCSPL clubs are not permitted to contact a player or parent or guardian of a player who is registered with another BCSPL club at any time. No attempt to recruit, persuade, or entice players from another BCSPL club shall be permitted. Recruitment refers to the unsolicited, deliberate, proactive, persuasion or attempted persuasion of a player, registered to another organization, with the intention of enticing them to leave their current organization.

- ii. Contact with players registered at other BC SPL organizations may be initiated by the player's parents or guardians only. Clubs may offer an evaluation opportunity once contact has been initiated.
- iii. If an evaluation opportunity is offered, the club must inform the parent/guardian that the Technical Director of the club at which the player is registered will be informed. The Technical Director of the club offering the evaluation must inform the Technical Director of the club at which the player is registered of the evaluation prior to it occurring.

*** BC Soccer rule 22 – Rules for the operation of the BC Soccer High Performance Leagues, c) For the purposes of development only, a technical staff member of a BCHPL team shall be permitted to approach the Technical Director responsible for any other teams to request permission to contact players of that team to offer an opportunity for promotion, such permission shall not be unreasonably withheld. Any other contact shall be deemed as poaching as described in Rule 6.

8. Invitations

January 17-February 28

- Clubs can offer an invitation to join a BC SPL team to players that are currently registered at the U12 Age Group from January 17 to February 28.
- Players (through their parent or guardian) are not required to accept BC SPL roster spots. Players and their parents/guardians are encouraged to be respectful of the club making the offer of a roster spot as they may be required to offer opportunities to other players on challenging timelines if a response is not provided in a timely manner. Responses to all invitations to join BC SPL teams are required within 5 days, unless the player is being evaluated by another club, in which case an extension can be requested for a response. The extension request must include a specific date by which a response will be provided and be tied to the evaluation process in which the player is involved.

February 28

- No evaluations can take place after this date

March 1

- A preliminary BC SPL roster with at least 15 players is required to be submitted to the BC SPL

NOTE, RE Thompson Okanagan FC, Vancouver Island Wave powered by Pacific FC, and Nanaimo United FC

Please note that due to geographical/region-specific requirements these dates are not in effect for the **Thompson Okanagan FC and Vancouver Island Wave powered by Pacific FC** member clubs and their partner clubs (regional based) and will not apply to **Nanaimo United FC** when they begin BC SPL play.

TOFC evaluations are held in late June for Intake teams. Dates can be found at <http://tofc.ca/wp/schedules-evaluations/>

VIW Pacific FC evaluations are held in March for Intake Teams. Additional information can be found at <https://islandtrainingcentre.ca/vancouver-island-intake-program/>

Nanaimo United FC evaluation information will be provided for the 2022 intake.

6. Good Practices for Player Evaluation

Recommended Player Evaluation Process

BC Soccer recommends all member clubs commit to supporting and promoting a responsible, ongoing, progressive evaluation and assessment process as it relates to player identification, selection, and placement. This includes the removal of the reference and promotion of the “TRY OUT” mentality within their club and team atmosphere.

In addition to the ongoing evaluation and assessment of players there are three additional recommendations from BC Soccer for the evaluation, selection, and placement of players.

Evaluate Players in Match Play and Training Environments

- This provides the coaching staff the opportunity to evaluate and assess players in environments which present appropriate dilemma and problem-solving requirements within the technical, tactical, physical, and emotional categories.
- It provides opportunities for coaches to receive an overall understanding of the player(s) within realistic and longer-term environments.

Maintain an Appropriate Player to Coach Ratio

- A maximum number of players should be set at each session to provide for a more responsible evaluation process.

Establish Evaluation and Assessment Criteria

- All evaluations and assessments should be conducted under the direction and guidance of the technical lead and supported by experienced coaches holding the Canada Soccer Youth Licence.
- In addition, evaluations and assessments should be implemented using a universal system which identifies player’s competencies over a period of time and in multiple environments.

Evaluating and Offering Places to players from other BCSPL Clubs

As outlined in the Evaluation Process, BCSPL clubs are not permitted to initiate contact with players registered with other BCSPL clubs. A player’s parent or guardian may initiate contact with a BCSPL club while registered with another BCSPL club. At the point that the player will be evaluated by the club being contacted, regardless of the process by which this occurs, the parent/guardian must be informed that the Technical Director of the club at which the player is registered will be informed. The Technical Director of the club conducting the evaluation must inform the Technical Director of the club at which the player is registered prior to conducting the evaluation.

There are no residency rules in the BCSPL and players can select the club at which they will play. Players cannot be prevented from being evaluated by other BCSPL organizations if the player’s parent or guardian has initiated contact. As the player is currently registered with another BCSPL club, it is important that the club holding the player’s registration is aware that the player will be playing in another environment, unless it has policy indicating that it is not

required to be informed. Following this initial step, the player may be evaluated within the training environment of the BC SPL club that has been contacted by the parent or guardian. The evaluation should extend over a minimum of two weeks. It is important for the BC SPL club to ensure that evaluation opportunities do not conflict with the home club's training and matches, which should be considered the player's priority.

Offering Places outside of the BC SPL to Players from other Clubs

As outlined in BC Soccer Rule 22, movement of players to BC SPL clubs for the purposes of development and the opportunity to play at a level not available within the current club (i.e., promotion) is permissible. BC SPL clubs are strongly discouraged from offering spots on teams outside of the BC SPL to players from outside the club, unless that level of play is not available within the current club or it is supported, in writing, by the current club.

Offering Places in the BC SPL to Underaged Players

Having children train and compete in the correct environment is instrumental in their development as young people and as soccer players. Development must be considered across all four corners of a holistic model, including social/emotional, mental, physical, and technical/tactical. Ensuring that children are appropriately challenged in each of these four areas is crucial to their enjoyment and progression in the game. There are times when children should practice and compete with and against older children; however, these are relatively rare and, generally, children should play within their own age group. The assessment of a child's ability to be successful and continue to develop should be treated very seriously and continually monitored. "Playing Up" should never be used as an incentive to join a club. If a player has been involved with a club for an extended period of time and may have played with older players prior to the BC SPL intake age, it may be appropriate to continue to do so. Given the need to understand the player's development across all four corners (social/emotional, mental, physical, and technical/tactical), offering places in the BC SPL to underaged players from other clubs is strongly discouraged. In support of this good practice, BC SPL intake rosters will be reviewed, with underaged players and their previous participation status (club, age group) identified.

7. Frequently Asked Questions

How can my daughter/son be evaluated for the BC SPL?

Refer to Evaluation Philosophy and Process sections above.

When would I know if my daughter/son was successful in being selected to a BC SPL club?

Invitations to join a BC SPL club may be offered January 17 until February 28.

How does COVID-19 affect the evaluation process?

BC SPL Clubs will have to abide by any BC Soccer Return to Play Guidelines that may be in effect during the evaluation dates mentioned above.

How will invitations to join a BC SPL club be communicated?

All invitations to join a BC SPL club will be in writing on official Club letterhead and come from the member club's technical director.

**Please note NO verbal invitations will be communicated and should not be seen as official if received. In addition, no AGE GROUP coach is responsible for communicating any invitations to players as this will be the responsibility of the Club's Technical Director.*

Are players allowed to be evaluated by multiple BCSPL clubs?

Yes, players can be evaluated by multiple BCSPL Clubs, but it is not encouraged if you are not serious about joining the club doing the evaluation. Players being evaluated by multiple BCSPL Clubs and the clubs evaluating these players must still abide by the timelines and processes presented in this document.

What can I expect at the BCSPL club evaluations?

All evaluations must be conducted within an environment which provides for the health and safety of the players participating and should follow the following guidelines.

- 1. Maximum number of players within each session to provide a responsible environment for evaluations.*
- 2. Responsible player to coach ratio as it relates to the evaluators and assessors.*
- 3. Provide technical and match playing environments to assess player age-specific competencies.*
- 4. Provide access to information regarding the overall process from beginning to end.*

How many players may be on a BCSPL team at this age group?

The official roster of players may not exceed eighteen (18) players at this level of play.

What are some of the selection protocols I should be aware of if my daughter/son is participating in evaluations?

It is the goal of the BCSPL to promote a responsible and positive experience within the evaluation process. The following are NOT acceptable practices within this process and if you encounter any of these practices you are advised to report them to Matt Holbrook, BCSPL League General Manager at matt@bcspl.ca

- 1. BCSPL Club Coaching staff uses pressure tactics to convince you to join their club*
- 2. BCSPL Club Coach or TD only makes verbal offers, and doesn't provide a written offer to join the club*

What are potential consequences if a BCSPL Club Technical Director or Coach violated recognized protocols and any official rules or policies within the evaluation process?

Any technical director or member of a BCSPL club coaching staff who is deemed to have contravened the above guidelines may be subject to disciplinary action.

This disciplinary action may take the form of but is not limited to the following:*

- BCSPL Club internal action.*
- BCSPL suspension, fine or other recognized action.*

** Standard BC Soccer Premier League / BC Soccer discipline procedures will be in effect.*

**For further information please go to the official website of BC Soccer at, www.bcsoccer.net
or the official website of the BC Soccer Premier League at www.bcspl.ca**
